There is just now a most remarkable revival of Uniohism in this vicinity, the inmediate cause of which is the formation of a regiment or two of colored individuals. Gen. Wallace needs a turnpile from this place to the Gap, before white sets in, and he has ferried up in the negroes of secondonists, to build if. He sends to each of them and demands three, six, tan of twanty, according to the seasih of the pluster and the strength of his seconds of extending the second of the mand demands deren from one who replied that he had not that many able-bedied men, "You must get them, then," was the stem reply, and to day the man is trying to buy or him the necessary number, until he cau run back those he had not have men of. or speed from Richmond, where be was at large and good means of knowing, as he has good powers of judging, says that the rebel srmy, and cannot be more than 130,000, and in his judgment is mod above 110,000 strong. He says that it is under the command of General Lee, but other authorities put tea. J. J. Jahns it on at its head. Estimating it of the highest figure, we need feel no apprehensions. The week has acasty gone, at the end of which, the chould dismiss all apprehension, as to have been forced to girls until the neglicial armises of Virginis have made a junction, is to have wen a victory.

A word of what Mr. Huribut, who will soon publish a narrative of his personal experience and observation, says, touching one or two much moofed questions. He believes the rebellion stronger to-day than over before, but weaker in gibting strength than is generally all thought. He does not think the total number of men under arms in the South more than 300,000. On the 22d of last February they had, according to his positive in the bank of the control of the company they may elect the power of the second of the company they may elect the power of the second of the control of the second of the second

Oswaso, aug. 25, 1862.

Having noticed in your paper statements of what different counties of this State have done toward the grand total of our forces for the suppression of the rebellion, I deem it proper to give some facts through your columns, if not objectionable, as to what Kendali county has done for the Union cause. Although her companies and squade of sodders have been "gobbled up" in the various mentions of neighboring counties, and of regiments. Little Rendall" yields the palm to no county in northern Himos for sodders in the field and our prosperous country, K. adall county sent one plant to the state of the contingent of the State of the Country of the state of the country, and the state of the country sent one hall company, in the 18th retiment, to getter with about twenty men in Capt. G. W. Gardner's company, in the 18th retiment. Also, about forty men in Capt. S. E. Sawyer's company of the 7th regiment, and some men in each of the various companies formed in Sandwich under Captain (now Major) Partridge, Plainfield, Joliet and Morris.

Later in the anumer, Kendall county furnished a company for Co. Dickey's 4th eavairy, Capt. C. V. Townsend, and snother for Col. Farmworth's 8th cavalry, Capt. J. A. Freeman, and companies from Oswago, Brastol, Liebon and Newska, besides a number of men children for the same county regiment, unjustry, too, as it was tendered and integrated as a Know country regiment." as a Kane county regiment, unjustly, too, as it was tendered and intended as a "For River regiment." But in this, as in other instances from time immemorial, egotism claims my or than merit will youch for.

Since the calls of the president for 600,000 sidditional troops, our county has not been backward in keeping herself "good, on the books." The work of enfishment was aided by a bounty or 890, offered by the board of supervisors, who saw the necessity of making asch as offer to keep our ness from going abroad to callst where extra bounties were offered, and to-day Keudall county has for the fore or mee from going abroad to callst where extra bounties were offered, and to-day Keudall county has for the fore were regiments. I rece not detail the horrible butcheries at the Upper and Lower Sloux Agancies, at New Ulm, and throughout this entire region as you have already been advised of the terrible details.

When the party accompanying Mr. Wycoff to make the annual payment to the Indians, arrived at this place on Monday noon, matters were in much confusion, owing to there being so few soldiers at this post and the great number of men, women and children freeing here for protection. I have just read two letters from a responsi-ble and well-informed person in Nicaragua, dated respectively June 1s and July 1s, 1881, from the town of Chinanders, in the October-tal Desartment, which contains the greater part of the wealth and the population of Nic-aragua, for in this department the seat of gov-subment is located, and the commercial and rolling classes reade. Upon the subject of negro colouis ition, the letter of June 1s has the following: J =0-r839-3m a madishwest in the United States, on-French and Cerman Corsets DOMESTIC AND FOREIGN NOVELTY CARRIAGE WORKS ADVANCE IN VALUE, STPFALO, N. "Considerable excitement exists among the reference of Nichragua, regarding the scheme of leading politicians in the United States to colorize Central America with free negroes and emancipated slaves. The people of this conserve will never consent to have such a population sent among them. They are united upon this subject, and those who have colored bloods in their veins are the most differ opponents of such a project. If the government of Nichragua has not already taken step is the matter, to a certainty fit will do so. When C pt. Capt. Griffin came here as the agent of the Transit Company, a report wont forth that he brought propositions for colorizing the poor, abandoned negro race of the United States in Nicaragua. No scouser was this report put in circulation than protests were made in all directions against permitting anything of the kind. The Farmers' Jubelic at our Horticulural Fair.

Since the unfortunate occurrence of circumstances, over which the managers of the State Agricultural Society bad no control, has compelled them to abandon the holding of a fair this year, we have often been asked "What will the barmers do for their annual re-union?"

If is well known by fair-going men that seveps hundred of the most intelligent farmers of this and the adjoining States have been in the habit of meeting together at these gatherings and brightening anew the chain of friendship. These fairs became an annual jubility, and were looked forward to with bright anticipations. In time of war we need, more than ever, to re-assure onnselves of the stead-fastness of our friends. In the war in which we are now angaged, firm triendships at the instness of our friends. In the war in which we are now engaged, drm triendships at the North and perfect good understanding between the different sections of our State and the country are of vital importance.

In answer to the question above, we would advise our friends in the country to embrace the opportunity afforded them for a re-union at the meeting and fair of the State Hordcultural Society to be held in this city during the second week of September. From present indications there will be a large concourse of people in attendance, and no better time can be afforded than to make this the occasion of the Farmers' Annual Jubilee. No other opportunity of the kind will offer for at least a year to come. The time will be well spont. witness knew Fitch's hundwriting, and these signatures were not his. Captain Huntoon had given the original claim against the Government to Mr. Costes, with instructions to collect and take half the proceeds for his trouble. Captain Huntoon said that he had stated to Mr. Costes at the time that the Government had paid him the \$655 teen and the \$159, and of course he would not receipt for them, the remainder of the voucher was to be collected. The voucher was not signed at the time. The clerk who said he had signed

portunity of the kind wall offer for a least a year to come. The time will be well spant after the heavy toils of harvest, and the money paid the Society will go to relieve our saffering brothers in the field. Prepare to come to the State Hortscultural Fair.

The procedution here closed their case.

Where Review—The Harver and Chors—
The weather during the past week has been warm and dry, and our farmers have been buy finishing the harvesting of the spring wheat, which may now be said to be entirely over. Owing to the drain on the conservation of the spring wheat, which may now be said to be entirely over. Owing to the drain on the conservation of the conservation of the conservation of the new spring wheat is said to be inferior to last year's crop. Several car loads have been received here, but it has nearly all been inspected. Condemned by the laspectors. A sample from Winnebago County, Ill., was exally shrublen, shrivelled berry. We trust, however, that this is not a fair eample of the sature crop. The crop of Oats is light, but the quality is said to be fair. Barley is light, but the quality of the prospects.

The crop of Oats is light, but the quality and the loads and the condition of the past ten days, and farmers talk more hopefully of the prospects.

Che Cribune. THURSDAY, AUGUST 28, 1862, HON. E. B. WASHBURNE, MON. E. B. WASHICTANE.

This distinguished gentleman was yesterday nominated by acclamation for representative in Congress from the 3d district of Illinois, consisting of the counties of Carrell, Jo Davie ss. Lee, Ogie, Stephenson and Whiteside. Mr. Washburne is already the oldest member of the House by consecutive years of service. He is the lest parliamentarian in the body, and decidedly one of the strongest and most useful members whom Illinois has ever sent to the pational councils. His election is a to the national councils. His election is

CEN. EOSECHANS ON THE MOVE.
It is announced that Gen. Rosecrans with
a force of 40,600 men has left Corinth and
proceeded southward toward Linetown,
where about 15,000 rebels were lying unwhere about 15,000 rebels were lying under Armstrong. Price is at Tupeio, on the
Mobile and Ohio railroad, with 35,000 men.
It is probable that, on being threatened,
Price and Armstrong will combine and
give Rosecrans battle. We may look for
stirring news from that quarter very soon.
The army of the West will soon be in metion southward. Reinforcements are going
forward at the rate of many thousand men
